

MLC-P55-T600 Linear Induction Motor

General Information

- High transmission efficiency
- Low noise, Good operating environment
- Frictionless operation, Free maintenance
- Applied to cross belt sorting equipment
- Wide speed range, Suitable for 0.8-3m /s full speed applications

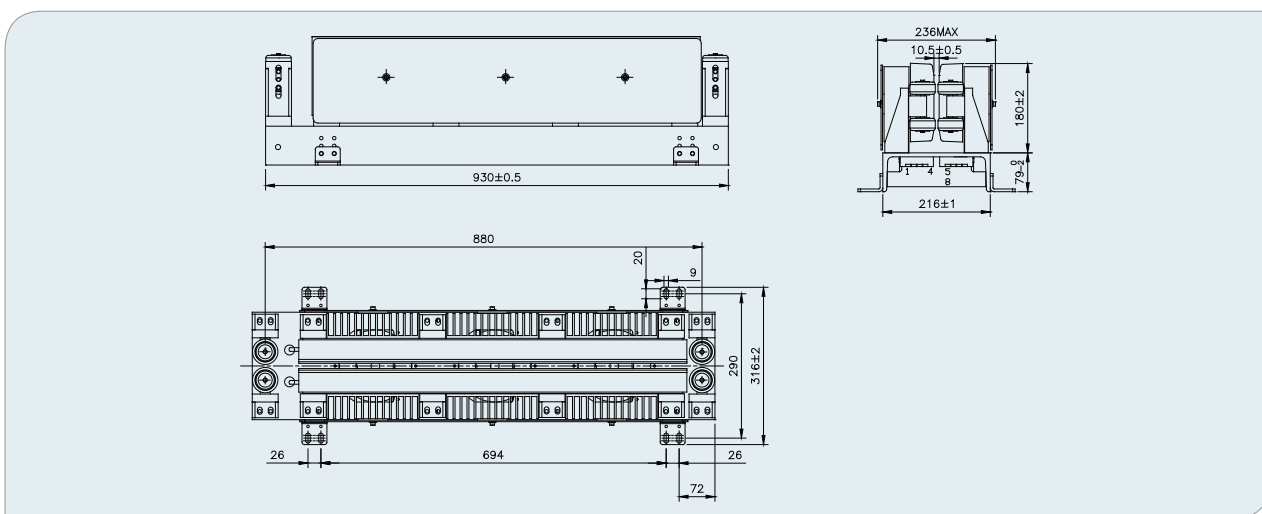

Specifications

Model	Max. operating power (KW)	Rated Voltage/Frequency (V/Hz)	Thrustforce (N)	Current (A)	Phase/Poles
MLC-P55-T600	5.5	380/50	>600	15	3/8

Model	Gap (mm)	IP Class	Insulation Class	Work Duty
MLC-P55-T600	IP60	IP60	F	S1

Note: Other parameters can be found in the product specification
